

**Message to the Congress
Transmitting the Energy Policy
Report**

August 4, 1995

To the Congress of the United States:

Throughout this century, energy has played a prominent role in American progress. The rise of the great industrial enterprises, the ascendance of the automobile, the emergence of environmental awareness, and the advent of the truly global economy all relate to the way that society produces and uses energy. As we face the opportunities and challenges of the next century, energy will continue to exert a powerful influence on our Nation's prosperity, security, and environment.

Energy policies that promote efficiency, domestic energy production, scientific and technological advances, and American exports help sustain a strong domestic economy. The need to protect the environment motivates our continual search for more innovative, economic, and clean ways to produce and use energy. And although oil crises have receded into memory, their potential for harming our economy and national security remains.

Our Administration has actively pursued a national energy policy since January 1993. We have engaged in an active dialogue with thousands of individuals, companies, and organizations. Informed by that dialogue, we have committed the resources of the Department of Energy and other agencies to ensure that our policy benefits energy consumers, producers, the environment, and the average citizen.

This report to the Congress, required by section 801 of the Department of Energy Organization Act, highlights our Nation's energy policy. The report underscores our commitment to implement a sustainable energy strategy—one that meets the needs of today while expanding the opportunities for America's future. By implementing a sustainable strategy, our energy policy will provide clean

and secure energy for a competitive economy into the 21st century.

William J. Clinton

The White House,
August 4, 1995.

**Message to the Congress
Transmitting the Bulgaria-
United States Nuclear Cooperation
Agreement**

August 4, 1995

To the Congress of the United States:

I am pleased to transmit to the Congress, pursuant to sections 123 b. and 123 d. of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2153 (b), (d)), the text of a proposed Agreement Between the Government of the United States of America and the Government of the Republic of Bulgaria for Cooperation in the Field of Peaceful Uses of Nuclear Energy with accompanying annex and agreed minute. I am also pleased to transmit my written approval, authorization, and determination concerning the agreement, and the memorandum of the Director of the United States Arms Control and Disarmament Agency with the Nuclear Proliferation Assessment Statement concerning the agreement. The joint memorandum submitted to me by the Secretary of State and the Secretary of Energy, which includes a summary of the provisions of the agreement and various other attachments, including agency views, is also enclosed.

The proposed agreement with the Republic of Bulgaria has been negotiated in accordance with the Atomic Energy Act of 1954, as amended by the Nuclear Non-Proliferation Act of 1978 and as otherwise amended. In my judgment, the proposed agreement meets all statutory requirements and will advance the non-proliferation and other foreign policy interests of the United States. It provides a comprehensive framework for peaceful nuclear cooperation between the United States and Bulgaria under appropriate conditions and controls reflecting our strong com-
